Enhance your child's growth and development at the Taconic Early Learning Center. Our program offers a safe and supportive environment for your child to flourish. The Y's early education program provides an atmosphere that encourages creativity and imagination. We seek to provide an education and an environment in which each child can grow. Our Pre-K program focuses on kindergarten readiness skills. The curriculum emphasizes pre-reading, pre-writing and pre-math skills. Students are bussed weekly during the school day for swim lessons at the Y!
